Local AIDS Pharmaceutical Assistance (APA, not ADAP) are local pharmacy assistance programs implemented by a Part A, B or C Grantee or a Part B Grantee consortium to provide HIV/AIDS medications to clients. These organizations may or may not provide other services (e.g., primary care or case management) to the clients they serve through a Ryan White HIV/AIDS Program contract with their grantee.

Goals: The Standards of Care serve as guides to gauge the quality of HIV services in Santa Clara County.

Programs are considered APAs if they provide HIV/AIDS medications to clients and meet all of the following criteria:

- Have a client enrollment process;
- Have uniform benefits for all enrolled clients;
- Have a record system for distributed medications; and
- Have a drug distribution system.

Programs are not APAs if they dispense medications in one of the following situations:

- As a result or component of a primary medical visit;
- On an emergency basis (defined as a single occurrence of short duration); or
- By giving vouchers to a client to procure medications.

Local APAs are similar to AIDS Drug Assistance Programs (ADAPs) in that they provide medications for the treatment of HIV disease. However, local APAs are not paid for with Part B funds “earmarked” for ADAP. (From San Jose, CA TGA Definitions for Eligible Services Ryan White HIV/AIDS Treatment Extension Act of 2009, Page 1).
AIDS Pharmaceutical Assistance (local) providers are expected to comply with the Universal Standards of Care, as well as these additional standards:
