

## Module 2: Reflect on Your Learning

<b>Common feeding concerns:</b>	<b>As a result of Modules 1 &amp;2, how has your focus shifted from fixing the child to addressing parenting and feeding practices?</b> For ex: Instead of telling parents that their child needs to eat more vegetables, I tell them to include the child in family meals. When parents eat and enjoy vegetables, the child will get many opportunities to learn to eat vegetables.
Baby refuses solid foods	
Child is a picky eater	
Child won't eat enough	
Child won't sit at the table to eat	
Child will only eat if tv is on
